

Upgrade to a Multitude of New Features and Enhancements

Get an easily accessible view of the tools your enterprise can be using as you proactively see, manage, update and protect your IT systems with LANDesk® Management Suite 8.8.

LANDesk® Management Suite Version

Feature	6.X	7	8	8.1	8.5	8.6	8.7	8.8
Enterprise efficiency and scalability							■	■
Central task management from a rollup core server							■	■
Replication of public queries, packages and delivery methods across servers							■	■
Grouping capabilities within scheduled tasks and packages							■	■
Location-aware enterprise package distribution with functional load balancing and fault tolerance							■	■
Oracle 10g and Microsoft SQL support							■	■
Agent watcher to restart downed agents and more							■	■
LANDesk® Management Gateway for secure, anytime, anywhere systems management over the Internet						■	■	■
Data collection from up to 4,000 active connections							■	■
Report designer tool with integration of active reports						■	■	■
Local accounts management for centralized management of local users and groups without Windows Active Directory and in mixed environments						■	■	■
Intel vPro technology support OEM-enabled AMT provisioning without IT intervention. End-user notification of AMT policy enforcement						■	■	■
Intel AMT support to discover, heal and protect Intel AMT-based hardware and software assets						■	■	■
Intel AMT Agent Present and System Defense support							■	■
LANDesk alerting system for enterprise-scalable, easily categorized alerts.								■
Remote control	■	■	■	■	■	■	■	■
Role-based administration granularity for central console-based control of permissions							■	■
Keyboard mapping, remote screen blanking and remote control to older agents from the Web console						■	■	■
Application layer (ring 3), view only and screen draw					■	■	■	■
Enhanced logging and third mouse button wheel movement				■	■	■	■	■
Inventory	■	■	■	■	■	■	■	■
Extended device discovery for real-time subnet level tracking of unmanaged devices							■	■
Multithreaded inventory capabilities for faster inventory performance than previous versions							■	■
Greater detail and support for SMBIOS 2.1+					■	■	■	■
Greater detail and support for SMBIOS 2.1+					■	■	■	■
Enhanced; launch an inventory scan from network view				■	■	■	■	■
Collect OS language				■	■	■	■	■
Delta scanning		■	■	■	■	■	■	■
Software distribution	■	■	■	■	■	■	■	■
Package shares support HTTP authentication for Windows devices								■
Install package as the logged-in user or system								■
Dynamic Preferred Server for location-aware package distribution with functional load balancing and fault tolerance							■	■
LANDesk® Targeted Multicast™ technology	■	■	■	■	■	■	■	■
LANDesk® Peer Download™ technology			■	■	■	■	■	■

LANDesk® Management Suite Version

Feature	6.X	7	8	8.1	8.5	8.6	8.7	8.8
Run from source option with native support for deploying Microsoft Office							■	■
Prerequisite package definition capabilities						■	■	■
Bandwidth throttling			■	■	■	■	■	■
Bandwidth detection	■	■	■	■	■	■	■	■
Byte-level checkpoint restart			■	■	■	■	■	■
Multifile multicast			■	■	■	■	■	■
Improved support for Linux RPM, improved targeting, automatic resolution of duplicates						■	■	■
InstallShield AdminStudio integration					■	■	■	■
Redesigned user interface and package chaining for dependencies and prerequisites					■	■	■	■
Expanded status reporting with greater insight into successes and failures					■	■	■	■
Application policy management	■	■	■	■	■	■	■	■
Web-based software deployment portal that runs on managed devices. Can run at logon and quickly show available policies								■
Inclusion of multiple packages in a single policy								■
Ability to make policies both required and optional, allowing users to optionally reapply a policy								■
Uninstall package now able to be associated with a policy. When a policy no longer applies, the associated uninstall package runs								■
Checked for IP address change				■	■	■	■	■
Software license monitoring		■	■	■	■	■	■	■
Application denial for specific Active Directory or LANDesk groups								■
Enhanced, predefined application list by group, department and operational unit					■	■	■	■
OS deployment	Add on	■	■	■	■	■	■	■
Enhanced OS deployment tool							■	■
Windows PE and LANDesk Linux PE support for 3x faster performance							■	■
Support for the Microsoft Vista's XIMage deployment tool							■	■
Automated patch deployment								■
Includes a limited version of LANDesk Process Manager 4.1 to enable fully automated deployment of security updates and patches								■
WAP device discovery								■
Profile migration		■	■	■	■	■	■	■
Provisioning Addition of over 100 provisioning templates. Ability to provision ESX hosts.								■
Unmanaged device discovery			■	■	■	■	■	■
Extended device discovery for real-time subnet level tracking of unmanaged devices							■	■
SNMP support						■	■	■
Enhanced reports, rediscover managed clients				■	■	■	■	■
Macintosh OS support		■	■	■	■	■	■	■
Macintosh remote control viewer. Can control both Macintosh and Windows devices								■
Mac OS X 10.5 (Leopard) support								■
Agent uninstaller on the core to prevent removal of management agents by users								■
OV, MP3, M4P and medial file detection							■	■
OS deployment						■	■	■
Shell script as application and Apple Automator task deployment capabilities							■	■

LANDesk® Management Suite Version

Feature	6.X	7	8	8.1	8.5	8.6	8.7	8.8
Software license monitoring			■	■	■	■	■	■
Software distribution, application policy			■	■	■	■	■	■
Web console	■	■	■	■	■	■	■	■
Executive dashboard						■	■	■
Role-based administration						■	■	■
Improved client configuration, software license monitoring				■	■	■	■	■
Role-based administration			■	■	■	■	■	■
Additional granular rights						■	■	■
Reporting	■	■	■	■	■	■	■	■
ROI report to help demonstrate the value of LANDesk products								■
Report publishing: schedule and generate reports in HTML, PDF, DOC, RTF and XLS					■	■	■	■
Expanded business reports			■	■	■	■	■	■
Scheduled tasks	■	■	■	■	■	■	■	■
Randomizer on local scheduler for start times and new execution filters								■
Global scheduler to distribute tasks to each system's local core							■	■
Multiple logins for scheduler service				■	■	■	■	■
Custom local scheduler tasks				■	■	■	■	■
Custom data forms	■	■	■	■	■	■	■	■
System requirements checker	■	■	■	■	■	■	■	■
Wake-On-LAN support	■	■	■	■	■	■	■	■
MSDE default database	■	■	■	■	■	■	■	■
Enhanced security: Secure SSL certificates			■	■	■	■	■	■
Online Self-Service Portal access					■	■	■	■
Oracle 10g and Microsoft SQL 2005 support							■	■

Available Add Ons	6.X	7	8	8.1	8.5	8.6	8.7	8.8
LANDesk® Antivirus for enterprise-ready virus protection and rootkit detection							■	■
Additional antivirus detail and detection, security scans can be scheduled when users connect to network								■
LANDesk® Updates database of patches, security threats and more					■	■	■	■
LANDesk® Patch Manager for automated vulnerability assessment and patch management across heterogeneous IT environments			■	■	■	■	■	■
LANDesk® Security Suite with antispysware, application blocking, security threats and more					■	■	■	■
LANDesk® Trusted Access™ technology for hardware-independent network access control capabilities						■	■	■
Enhanced LANDesk® Security Suite and LANDesk® Patch Manager: real-time spyware detection/removal, frequent security scanning, antivirus enforcement						■	■	■
Ability to add custom products to custom vulnerability definitions and perform test scans on target devices. Definition group settings to automate security content distribution								■
Connection Control Manager (CCM) to let you monitor and restrict access to managed devices with granular control of USB devices and support for Bluetooth					■	■	■	■
CCM encryption utility to protect confidential data. USB storage devices and CD/DVD devices can be made read-only								■
LANDesk® Host-Intrusion Prevention (HIPS) Added security layers to thwart malicious attacks and rootkits							■	■
LANDesk® Asset Manager for tracking computer and non-computer assets				■	■	■	■	■

One More Reason to Upgrade

Upgrade to LANDesk® Management Suite 8.8 and access all its added functionality, such as access to the LANDesk® Antivirus add-on, LANDesk® Management Gateway, Intel AMT support and everything else noted here, and all for the same cost as LANDesk Management Suite 8.6 and 8.7.

With a deal like that, why not upgrade now?

For per-node pricing for LANDesk® Management Suite, contact LANDesk or your LANDesk solution provider.
